TOEFL iBT	Advanced	2 quarters (6 months)	For students who have completed GPIP 5 or its equivalent.

Notes

- In accordance with the guidelines set forth by **inlingua International**, the inlingua GPIP intensive English program has adopted the sequence of levels described above. The GPIP program consists of 7 courses (including the Advanced TOEFL iBT course for students who have completed GPIP 5) to meet the needs of students at all proficiency levels (from absolute beginners to advanced learners).
- **inlingua International** recommends that inlingua centers follow the level and proficiency guidelines established by the United States government (i.e., the ILR 5 level proficiency measurement framework) to guide learners from a beginning to advanced level of proficiency in spoken English. More information about the ILR language proficiency and assessment scheme can be found at <http://www.govtilr.org>.
