

ENGLISH PROGRAM LEVELS AND INTERNATIONAL NORMS

UNDERSTANDING INLINGUA ENGLISH LEVELS

The inlingua General Purpose Program (GPP) is a comprehensive program in general English designed to meet the language learning needs of adults and young adults. The GPP starts from a zero level of English proficiency, providing students with the grammar and vocabulary necessary for basic communication, and leads up to the C2 level of the Common European Framework of Reference (CEF), level 4 of the ILR language proficiency scale, and the full range of TOEFL and TOEIC scores. All inlingua English programs take advantage of the inlingua GPP curriculum and lesson plans, which are used at all 300 inlingua Language Centers throughout the world.

RELATING INLINGUA LEVELS TO INTERNATIONAL LANGUAGE PROFICIENCY AND TESTING FRAMEWORKS

inlingua's English programs have been carefully designed to conform to U.S. government norms (the ILR Language Proficiency Skill Level Descriptions and Scale), the Common European Framework of Reference (CEF), and specific bands of TOEIC and TOEFL iBT scores, in addition to other language proficiency scales and frameworks.
